ABOUT THE SHOW

Viet Nam Defence Expo 2024 marks the second occasion that the Ministry of National Defence of Viet Nam has taken the lead in organizing this event. Its primary objective is to facilitate the exchange of achievements and research insights, as well as advancements in the production and deployment of weaponry and equipment. Additionally, the exhibition aims to enhance collaboration within the defence industry among participating nations.

Since its inauguration, Viet Nam Defence Expo has successfully drawn substantial participation from defence agencies and national enterprises. They showcased the

latest products and cutting - edge technologies tailored for defence and security, captivating the interest of potential clients.

With this large - scale and expanded return, the 2024 edition promises to be a prestigious international defence industry event, attracting a wide participation of high - ranking delegations both domestically and internationally.

80th ANNIVERSARY CELEBRATION OF THE ESTABLISHMENT OF VIETNAMESE PEOPLE'S ARMY

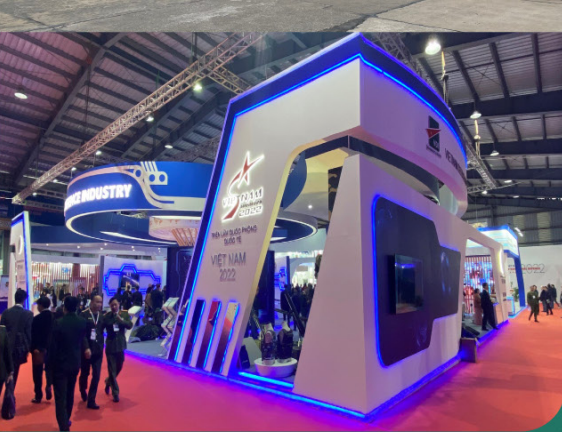

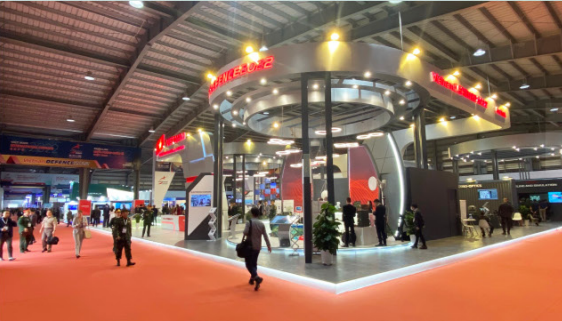

80
YEARS

Established on December 22nd, 1944, the People's Army of Viet Nam has now been in existence for 80 years, marked by its growth, combat experiences, development, and significant achievements. It holds a prestigious position within the group of nations that are highly regarded worldwide for their military capabilities in the Southeast Asia region.

In the current context, the Viet Nam military actively seeks to integrate and engage in deeper cooperation with international defence organizations and entities, contributing to the preservation of peace, stability, and the collective response to security challenges within the region and across the globe.

To mark this milestone, a series of celebrations are underway nationwide and in the capital city of Hanoi. The Nationwide Commemoration Event on December 20th, 2024, along with the Viet Nam International Defence Expo 2024, will create a series of powerful impressions and offer substantial cooperation opportunities between exhibiting companies and agencies and units managing weapons, defence equipment, and security technologies.

MARKET OVERVIEW

Viet Nam national defence is invested in alignment with the country's socio-economic development pace, designed to bolster defence capabilities for safeguarding the nation without getting involved in an arms race. Viet Nam consistently allocates over 2% of its GDP to the national defence budget each year (Source: 2019 National Defence White Paper).

The defence industry places a strong emphasis on self-reliance, self-sufficiency, and modernization while actively promoting international cooperation in research and manufacturing. The diversification of weapon procurement and military equipment is a key strategy to achieve the goal of establishing a modern People's Army of Viet Nam by 2030.

15 TECHNICAL PRESENTATIONS

VIET NAM DEFENCE EXPO 2024 - THE KEY HIGHLIGHTS

Product and Technology Showcase:

This exhibition provides a platform for businesses to showcase their products, technologies, and solutions related to defence and security to the armed forces of Viet Nam and neighboring countries.

High-Level Delegations:

Over 140 high-level international delegations including Ministers, Deputy Ministers, and Commanders of defence and security forces from various countries and over 350 senior national delegations are invited.

Technical Presentations:

With selected specialised topics, the Technical Presentations create opportunities for weapon manufacturers, defence equipment providers, and security experts to share information about their products, technologies, and solutions to the authorities and units of the Armed Forces of Viet Nam. It is also a platform for manufacturers to identify the needs of users regarding the technical challenges they are facing, enabling collaborative efforts to devise comprehensive solutions, enhance products, and improve services.

Business Networking:

The event offers opportunities to connect defence forces, defence cooperation agencies, military trade organizations, and defence industry manufacturers and suppliers. By establishing partnerships, all parties can collaborate to develop products and services in the defence and security sector, benefitting all involved.
